REB Welcomes New Project Engineer Adam Salage

Chicago, IL, 08/27/12 - REB continues to grow, hiring new Project Engineer Adam Salage. Adam comes to us with over twelve years of experience in the racking industry. He has extensive knowledge of all types of racking systems including archive, push back, drive-in, pallet flow and pallet storage.

Working out of our remote office in Pittston, PA, Adam will work closely with our Project Management department to provide detailed engineered drawings and cost effective pricing for each customer's individual requirements.
