

# REB Storage Systems International Continues to Grow with the Opening of a NEW West Coast Warehouse

Since 1962, REB Storage Systems International has been a leader in providing Turnkey Material Handling Solutions internationally. We have served our customers with quality products and services for almost 50 years from our headquarters in Chicago. We strive to constantly improve in order to better serve our clients and, with this objective in mind, we are now opening a new facility in Southern California in order to provide local support to our West Coast customers.

A huge key to our success is our exceptional staff, and we have two dedicated employees growing our West Coast presence and ready to provide you with the right products and services for your business.

Director of Sales Jeff Howard will head up our West Coast location and bring efficient service to REB's customers. Jeff has worked for over 12 years with record centers as well as in the material handling industry.

Paul Bauer will join Jeff at our West Coast facility as a Project Manager. Paul has 19 years of experience in the material handling and records storage industries. With this experience, he will provide REB clients with innovative, cost-saving designs and professional project management services.

We are ready to find the right solution for all of your needs! Contact us to find out about our many products and services, including Rack Armour, a remarkable new post protector made from strong ballistics grade polymer. Rack Armour easily installs in seconds and is resistant to harsh temperatures, moisture, mold, corrosion, acid and most solvents.

## What does our West Coast Warehouse mean for your company?

### Faster Product Delivery

Many products in stock can be delivered overnight

### More Affordable Products

Shipments are local, saving you money on freight costs

### Convenience

You will have a local REB employee on hand to help with all of your needs

### Personalized Service

REB always provides customized service, which is why so many of our customers have stayed with us over the years
