

Boltless Rivet Shelving

REB Storage Systems International

For companies looking for an affordable, simple storage solution, boltless rivet shelving is often ideal. A standard unit consists of posts, horizontal beams, and decking. It is easily assembled and does not require nuts, clips, or bolts. Boltless rivet shelving offers strength and durability with a variety of beam options to accommodate light to heavier loads.

Possible Applications

REB Storage Systems International has a full range of well-built, durable rivet shelving components available in a wide variety of sizes to suit every application, including:

- Small parts storage
- Automotive parts storage
- Hand picking
- Record archive storage
- Backroom storage
- Retail storage
- Specialty applications such as tire storage or garment storage

Boltless Rivet Shelving Specifications and Options

Post Heights of 6', 7', 8', 10', and 12' are available.
