REB STORAGE SYSTEMS INTERNATIONAL

A single-source provider of storage and material handling solutions for records centers

REB Storage Systems International has been designing and building record archive storage systems for more than 60 years. During that time we have developed a reputation for innovative design, product integrity, and timely delivery.

REB’s mission is to invest in lasting partnerships that drive mutual growth. Year after year, this mission drives us to look for ways to be a better partner to our customers. One way we accomplish this is through continuous education by participating in industry associations. We joined the Association of Commercial Records Centers in 1981, and have since been active in PRISM and now i-SIGMA, including board participation.

In addition to our racking and shelving systems, REB offers a catalogue of material handling products to support all aspects of your archive storage operation. We hope you consider contacting REB to be your single-source partner for all your archive storage and handling needs.

Product Preparation and Packing

Workstations

- Customizable sizes, materials, and organization elements
- Stationary and mobile options available
- Workstations with integrated cabinets available

Hot Melt Tape

- Superior adhesion properties
- Great for heavy weight or bulky box sealing
- Complies with the Federal Food, Drug, and Cosmetic Act, CFR Title 21, Supart B, Par. 175.105
- CID A-A-1684B
- Available in an array of lengths and thickness

Dock Items

Dock Seals

- Creates an airtight seal between the loading dock and the back of a trailer, helping to conserve energy and protect freight from elements
- Nylon reinforced vinyl facings for high strength
- Chemically sealed ends prevent moisture infiltration
- Optional pads to provide protection against wear
- Retractable overhead dock shelter available to match height of trucks

Dock Bumpers

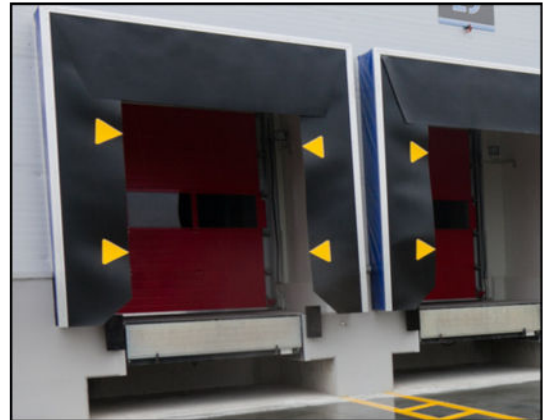

For protection from damage to trailers, the loading dock, and all dock equipment. Options include:

Steel-Faced Dock Bumpers

- For use where the greatest dock protection is required
- Offers high surface abrasion resistance against up and down trailer movement
- Allows bumpers to compress

Sliding Dock Bumpers

- As a trailer being loaded moves up and down with the weight of the forklift, the sliding dock bumper moves with the trailer to limit friction and abrasion
- Perfect impact angle for declined docks
- Toughest engineered rubber laminate
- Replaceable bumper pad

Laminated Dock Bumpers

- For use in low to medium traffic loading docks
- Can be used as rub rails at the sides of truck wells and as wall protection to absorb forklift impacts
- Customizable to accommodate unusual anchoring conditions

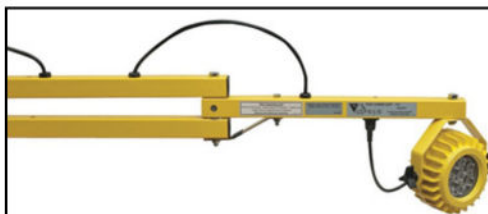

Molded Dock Bumpers

- For use in low to medium traffic loading docks
- Can be used as rub rails at the sides of truck wells and as wall protection to absorb forklift impacts

Dock Lights

- LED and non-LED options
- Fan-mounted lights available
- Feature many arm lengths
- Heavy duty lights for extreme environments available

Product Transport

Ladder Carts

- Aluminum ladder carts provide increased efficiency for picking
- All welded construction delivers extra strength for heavy loads
- 5" wheels are standard, can be upgraded to increase capacity and to maneuver on catwalks
- High-reach ladder combined with a standard truck
- Safety rails with a non-slip ladder
- Step-lock allows for stable, high-stack order filling

Hand Trucks

- High strength, light-weight aluminum
- 2-wheel hand truck
- Converts to 4-wheel platform truck
- Several size and capacity options available

U-Boats

- Securely fits up to 30 standard records storage boxes
- Heavy-duty steel and lighter duty aluminum available
- Removable handles
- Steel non-skid Diamond Deck
- Additional shelves can be added
- Collapsible U-boat available
- Can move and turn heavy product easily

Order Picker Poles

- Employees can easily retrieve and place archive boxes from the back of the rack bay without straining
- Minimizes risk of damaging stored materials compared to manual retrieval or retrieval with items not constructed for archive boxes

Pallet Jacks

Pallet Jacks:

- One-piece formed forks for maximum durability
- Hydraulic system tested to more than one million cycles
- Numerous size and load capacity options
- Forklift tray available

Motorized Pallet Jacks:

- High maneuverability
- Easy-to-use controls
- Programmable performance levels
- Rugged construction
- Reliable operation
- Easy maintenance

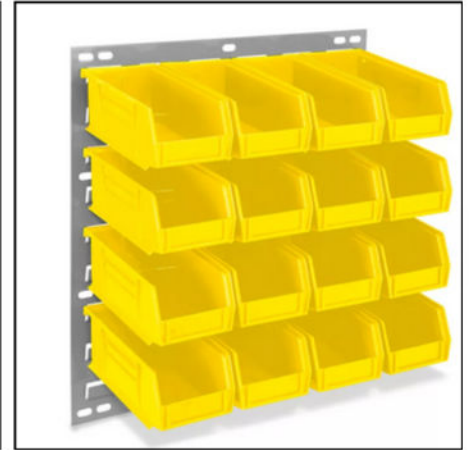

Accordion Conveyor

- Easily expand to transport items from point A to point B
- Options available to meet package size, type, shape, volume, and weight requirements
- Can gradually contract or expand as needed
- Can be curved into various configurations to deliver items to multiple areas
- Available with fixed leg height and adjustable leg height

Storage Bins and Pegboards

- Industry-leading hanging and stacking plastic storage bins
- Heavy-duty, industrial-grade polymer bins stack together or hang from louvered racks and panels, rail racks, storage cabinets and louvered carts for high-density storage
- Corrosion-proof and unaffected by weak acids and alkalis
- Dividers, lids and a wide range of labeling options are also available
- Louvered panels are made of 16 gauge cold rolled steel.
- Variety of colors and sizes
- Can be mobile, freestanding, or wall mounted

Stacking Bins

- Heavy-duty plastic storage bins save space by securely stacking atop each other, and can sit on wire shelving and steel shelving
- Available with swivel casters and brakes for mobility
- Many sizes and color options available
- Resistant to weak acids and alkalis
- One-piece construction is water, rust and corrosion-proof

Trash Cans

- Plastic, metal, and cardboard options
- Trash cans with integrated wheels
- Dollies to transport trash cans
- Recycling containers
- Trash cans with lids
- Tilt truck trash cans

Rack Armour Column Protectors

- Fitted in seconds and last for years
- Requires no maintenance unlike metal barriers
- Patented design to deflect and absorb impact
- Suitable for ambient, chilled and freezer environments
- Fits all types of pallet racking and is transferable
- High visibility color for warehouse safety
- Materials are non-toxic and fully recyclable
- Impervious to rust, moisture, mold growth, corrosion, acid, alkaline and most solvents

Guardrails

- Two available post heights: 18" (457mm) and 44" (1118mm)
- 10" x 10" Base Plate
- Single- or double-rail solutions
- Modular/replaceable components
- Removable rails for increased flexibility and temporary access
- Spring-loaded gate – allows access while prompting a visual check
- Bright visual presence reduces chance of accident
- Removable black cap
- Powder coated and UV

Eyewash Station

Flush eyes quickly and gently with a variety of mobile and wall mounted eyewash stations.

- Twin spray heads with flip-top dust covers
- Built-in filters for clean water
- Plumbing required
- Recommended for machine shops, labs and janitorial closets
- Includes: Eyewash station, emergency sign and inspection tag
